

MATH 42.10Q & Math 232.10Q – WINTER 2020
PRE-CALCULUS II
CRN 36443, Classroom MCC -12
TWTh 11 AM to 1:15 PM

Instructor: Ms. S. Arabhi (pronounced AA-rub-hee)

e-mail: arabhisundararajan@fhda.edu

Office Hours: MCC lounge: Tuesday & Thursday: 10 AM to 11 AM

Corequisite Class: You are registered for a 2.5 credit co-requisite with Math 42. I am not going to teach Math 232 as a separate class, which means our meetings will be lectures and reviews intertwined on Tuesdays, Wednesdays and Thursdays. Do not plan on skipping any part of the class.

Prerequisite: Math 41 with a grade of C or better, or equivalent placement.

Required material:

- 1) PRE-CALCULUS with Limits, (3rd Edition) By Ron Larson
- 2) A Scientific Calculator with trigonometric and inverse trigonometric capabilities (graphing calculators are not allowed)
- 3) Webassign is NOT REQUIRED in my class. If you have a Webassign access code, course key to access online book is: **deanza 0791 8638**

Course Objectives: (This is not an exhaustive list.)
(Chapters 4, 5, 6, 10 from the text book)

Define and evaluate trigonometric functions; solve right and oblique triangles; analyze inverse trigonometric functions; solve trigonometric equations; define polar coordinate systems; perform operations with 2D vectors

Homework:

- Reading assignments & problems from the text will be assigned in every class and it is your responsibility to solve the problems and keep a written record. We will discuss solutions to some problems, but not all.
- Written Homework will be due on Tuesdays and I will announce on Thursday the sections to be turned in on Tuesday.
- You are encouraged to work in groups, but do not copy each other's work. There is NO ONLINE homework in my class, but if you have a WebAssign code, you can practice problems on your own and you will have access to the e-book. The code for my class in WebAssign is **deanza 0791 8638**.
- Each section will be worth 3 points. NOTE that in the written homework, answers must have supporting work to receive credit! (Answers alone will receive a 0 score.)
- I will not accept homework on paper torn from spiral notebooks. Also, staple or use paper clips to hold your work together. Please do not fold the corners. LATE OR ILLEGIBLE HOMEWORKS WILL NOT BE ACCEPTED. Please also go over the **Homework Dos and Don'ts** handout thoroughly.
- If you are absent, please find out about any missed work and assigned homework from canvas or a friend; please do not ask me.

- **Quizzes:**

There will be two quizzes almost every week (refer to calendar) at the end of class (10 -15 minutes) related to the material taught the previous classes. Do your reading and homework everyday, to fair well in these quizzes. Don't miss any of these since there will be NO MAKE-UP quizzes. I will drop 4 lowest quiz grades at the end of the quarter, so if you are absent during a quiz, the absent quiz could be your dropped quiz.

- **Special group Quizzes (Tutorial): (10 points each)**

This is a review for exams. A set of questions will be given in class, and you will be allowed to work in groups. You have to turn in the solution at the end of the class. These quizzes are special because I will assist you in solving the problems. These quizzes will assess your understanding of the material taught in the class, as well as encourage you to work in groups. These will also help you review for the exam next day. The quiz will be closed book, so you should be prepared with the material. **Don't miss these, since there will be no make-ups.**

- **Exams:**

Exams are primarily based on homework, problems from quizzes, and solved problems in the textbook. So the best way to prepare for exams is to sincerely do all the homework, read the book, learn from your mistakes in the quizzes, and clear all your doubts as soon as you can. There will be four written exams (50 minutes) and a final exam (2 hours). **THERE ARE NO MAKE-UPS for EXAMS.** However, I will drop worst of the four exams. It is your responsibility to let me know as soon as possible (within 24 hours) if you are going to miss an exam (via phone, e-mail, note, in-person, etc) and provide "valid" reason and documentation for the absence. FINAL EXAM IS SCHEDULED FOR Tuesday, March 24th from 11:30 AM to 1:30 P.M. **Final exam is mandatory and will not be one of the dropped exams,** and if you cannot take the final exam at the scheduled time and date, please do not enroll in this class. The final exam will be CUMULATIVE, i.e. it will contain everything covered during the course. **Please refrain from wearing hats/caps and sunglasses to exams and quizzes.**

- **Class Participation & Attendance:**

Attendance is strongly emphasized and class participation is actually part of your course grade. **There will be pop/surprise quizzes at any time/any day.** Study everyday and be ready with any questions you have. I always encourage class discussions. My classes always begin promptly, so I ask that you be on time. Students who attend regularly and show up on time to my classes are almost always successful. I may drop a student from the class if they are absent 4 or more times, or miss a major exam. (But do not assume if you stop coming to class, you will automatically be dropped. You are responsible for dropping yourself out of this class). I will also drop any student who, in my judgment, is habitually disrupting the class. Please switch off all noise making devices and wait to text until after the class ends.

Grading:

Class Participation	15 Points	T, W, Th 11 AM to 1:15 PM
Quizzes (5 points each)	60 Points	See calendar (Tuesday & Thursday)
Homework (3 points per section)	60 Points	Due every Tuesday
Special Quiz (10 points each)	40 Points	See calendar
Extra credit Pop quizzes	Up to 40 points	Any day, any time during class
Exam 1	50 Points	THURSDAY, JANUARY 16 th
Exam 2	50 Points	THURSDAY, FEBRUARY 6 th
Exam 3	50 Points	THURSDAY, FEBRUARY 20 th
Exam 4	50 points	THURSDAY, MARCH 12 th
Final Exam	100 Points	TUESDAY, MARCH 24 th 11:30 AM to 1:30 PM in MCC 12

Total Points: 425 to 465

*** IF YOU MISS ANY CLASS, LOOK IN CANVAS or ASK YOUR CLASSMATES FOR THE MISSED WORK. PLEASE DO NOT ASK ME. ***

Letter Grade: I do not curve. Course grades will be determined on a standard scale:

≥ 97 %	→ A+	94 - 96.9%	→ A	90 - 93.9%	→ A-
87 - 89.9%	→ B+	84 - 86.9%	→ B	80 - 83.9%	→ B -
77 - 79.9%	→ C+	70 - 76.9%	→ C		
67 - 69.9%	→ D+	64 - 66.9%	→ D	60 - 63.9%	→ D -
≤ 59.9%	→ F				

Additional NOTES:

- Last day to **drop class** with a full refund and with no record of grade is **Sunday, January 19th**.
- The deadline for dropping with a “W” is **Friday, February 28th**. In every case, a student is responsible for dropping him/herself. You should not assume that you are automatically dropped from the class for non-attendance. Students on the final grade roster who have not dropped, and who do not show up for the final exam, automatically receive an F in the course.
- **Last day to add** is Saturday, January 18th
- **Last day to request pass or no pass:** Friday, January 31st
- **Zero Tolerance policy towards Cheating**
Cheating on any exam/quiz/ HW assignment/tutorial may result in an F grade for the course and is absolutely prohibited in my class! Looking at someone else's exam, helping another student during an exam, talking to anyone except me during an exam, or using an external source of information for which you were not explicitly given permission, will result in an instructor drop or an F grade for the course. Cheating incidents will also be reported to the Dean of Students. I will be extremely strict about not

allowing any sort of electronic devices including cell phones, laptops etc during exams, quizzes.
Also, please do not wear earphones/ hats/ sunglasses to quizzes and exams.

- **College Policy:** Students cannot take the same class more than three times for a grade, including W. Late adds and drops will not be processed.

Additional Assistance:

The key to being able to take advantage of any of these services is to be quick to recognize your need for assistance. It is always better to seek help sooner rather than later.

- 1) The Math, Science & Technology Resource Center (MSTRC) in S43 provides assistance M-Th: 830 AM to 630 PM and F: 8:30 AM to 12:30 PM.
- 2) Your classmates: Many students find informal study partnerships and groups to be most helpful in learning math. I recommend that you study with others in this class. The effort to meet someone in class is worthwhile.
- 3) **SEE ME DURING OFFICE HOURS:** Please feel free to ask me questions during class time or fix appointments outside class timings. I'll give you as much direction and assistance as I can, and refer you to additional resources as needed. **Do not wait until you are drowning to get help.**
- 4) Student Success Center: See <http://www.deanza.edu/studentsuccess/> for online tutoring, workshops and much more. CANVAS also has online help.
- 5) Any student with a documentable disability who needs academic accommodations should contact:
 - a) Disability Support Services (DSS): Student Services Building (408) 864 8839
 - b) Educational Diagnostic Center (EDC): Learning Center West 110; (408) 864 8839
 - c) Special Education Division: 864 8407; [WWW.deanza.edu/specialed](http://www.deanza.edu/specialed)

6) Cell phone, smart watch and other device policy

- Have to be stowed away and out of sight. Have to be completely silent, not even in vibrate mode. *No headphones allowed in class.* They should never be seen while class is in session. Please switch off your cell phones / beepers before entering the class out of courtesy to others.

- You will be given 2 warnings, after which I will take off 2 points every time.

- You may go outside the class anytime to use your cell phone

- During exams, if you have to go outside the classroom, hand in the cell phone to me first.

- If your phone sounds during a quiz or exam, this will be an indication that you are done with the quiz or exam and you risk having your paper taken from you.

Contract

One purpose of this course syllabus is to provide you with the guiding principles upon which the class runs, and another is to make sure that you have at your finger tips answers to any questions which might arise.

Please put this sheet in a safe place where you can easily refer to it.

Make sure you read the syllabus in its entirety before you ask me any questions about the course.

USEFUL TIPS:

1. Education is a gift, an opportunity, not a guarantee. When you feel like giving up, carefully organize your rationalizations and excuses on a piece of paper. When your list is complete, burn the paper! Then **keep working** on ...
2. Minimize your dependence on published answers at the back of the book/ internet. Learn to verify your answers by checking your solutions or by working the problem two different ways (perhaps numerically and algebraically). You will NOT have an answer key during examinations, nor at work, so **develop self-reliance**.
3. Students often fall into the trap of thinking that if they have done all the homework (often by looking at the answers and working backwards, or by plugging in numbers in similar problems), that they have mastered the material. With luck, this level of effort alone might earn a 'C' grade. Serious students do enough additional homework problems to evoke a feeling of **smug confidence**.
4. Be sure to quickly scan-read each section taught the previous day before coming to class. You can then spend far less time taking notes, concentrate more on what is said, and ask lots of questions.
5. Once class starts, all conversations among students must stop. Except when we are working in groups, only one person will speak, and everyone else will listen.
6. You will never be penalized for being late. But please be respectful and mindful to your fellow classmates and teacher in case you do get late, and quietly take a seat without making conversation with anyone. There will be no retakes of pop quizzes if you miss them due to being late.

Math 42 Calendar				
	<i>Tuesday</i>	<i>Wednesday</i>	<i>Thursday</i>	<i>Week</i>
January	January 7 <i>First day of class</i>	8	9 QUIZ 1	1
	14 QUIZ 2	15	16 EXAM 1	2

	17 QUIZ 16	18	19 Special Quiz 4	11
	24 FINAL EXAM 11:30 Am to 1:30 PM MCC-12	25	26	12

Saturday, January 18th : Last day to add classes

Sunday, January 19th: Last day to drop w/ refund

Friday, February 28th: Last day to drop with "W"

Friday, January 31st : Last day to request pass or no pass

Student Learning Outcome(s):

*Formulate, construct, and evaluate trigonometric models to analyze periodic phenomena, identities, and geometric applications.
