

Hello Everyone,

Thank You Vice Chancellor Cheu and President Holmes for your presentation on the various options on Friday, October 13, 2023. The Measure G Task Force would like to get some clarification on behalf of our constituents and inquire about pricing for two other potential options.

You presented us with three options titled Task Force Recommendation, Option 2, and Option 3. For ease of discussion, we will refer to the Task Force Recommendation as Option 1.

The main concern for our constituents is lack of specificity regarding how the square footage numbers for Options 2 and 3 were determined and what exactly would be moved or eliminated with those options.

- For example, for Option 2, what would a 20,000 square foot Creative Arts building and a 4,000 square foot addition to the VPAC provide.
- In Option 1, what is the breakdown of square footage in Creative Arts Complex between Creative Arts, Performing Arts, and Event Space?
- What areas are involved in the 7,000-10,000 square feet of renovations in the RSS; is it just the current location of the bookstore?
- Based on what we are seeing in Options 2 and 3 it appears that an Event Space is no longer a requirement of the Board or District. Is this correct?
- If so, we would like to see the pricing for Option 1a with the Event Space removed.
- Also, pricing for Option 2a with 30,000 square feet for Creative Arts.

Also, it is our opinion that the Arts need to begin the Programming phase so we can better understand the exact need.

We look forward to the meeting this Friday to see what pricing has been provided so far. We are also open to the possibility of delaying the next Board presentation to December to allow for more information gathering and discussions with and feedback from our constituents based on what is presented Friday.

Thank You

Sincerely,

Measure G Task Force
